

Make a “gift” to your community by investing in the On-Line Training:

INDIVIDUAL LICENSE:
\$250 per Individual

\$150 KACF Member Rate per Individual

Individual license includes Certificate upon successful completion and a Digital Badge; individuals will be listed in the Certification Registry

COMMUNITY FOUNDATION LICENSE:
\$2,500 Non-KACF-Member license per community foundation+ \$600 annual renewal

\$1,500 KACF Member license per community foundation + \$300 annual renewal

Community Foundation license provides a group access; videos can be used at board meetings or other board training events; community foundations may consider making a grant to themselves or pay for the license as part of the training and professional development budget; no certificate of completion will be issued to individuals but a community foundation will be listed in the participants' registry and a digital badge will be issued to participating community foundation; should a foundation decide not to renew the license in a particular year it would be required to pay the full rate again to get back into the rotation.

A GIFT TO YOUR COMMUNITY

Be the best you can be for your community foundation

Have you ever worried about the risks and responsibilities of managing a community's legacy? Have you ever wanted to be more cost effective and efficient with the ongoing challenge of educating new board members and staff?

The ongoing cycle of educating new board members and staff can be challenging and costly!

To support community foundations, the Kansas Association of Community Foundations has developed the first-of-its-kind series of affordable On-line Express Training Videos and Certification Program for communities of all sizes anywhere in America.

15-Module Series

This fast-paced flexible training and certificate program focuses on core essentials and seeks to increase understanding and, consequently, the effectiveness of community foundations and affiliates. The 15-module series covers nearly every aspect of community foundation work: from asset development and quality grants programs design to fiduciary and policy matters. These videos offer a great start to new board members and staff alike. It is also a great opportunity to review and reflect deeper as a group of new and seasoned community foundation practitioners.

We have captured years of experience and condensed them into short videos presented by renowned practitioners who have helped community foundations of various sizes, geographic, and cultural challenges grow.

Easy-to-navigate short modules may be viewed in any order with 24-hour-access from the comfort of a home or an office, in private, or as a group board training. Stop, pause, and resume at your choosing!
